The Xtreme Pak of Life contains a specialized group of synergistic products designed to cleanse, nourish, balance and energize your body. The 4 products contained in this pack include: Omega 3/70s, Assimilator, OptiBerry and Nature's SBOs. **SPECIAL DISTRIBUTOR PRICED AT \$100.00 FOR THE PACKAGE WHICH "AUTOMATICALLY QUALIFIES THE DISTRIBUTOR FOR SPECIAL BONUSES BEGINNING JAN 2007"**

Omega 3/70+ formula contain the highest possible ratio of EFA (Essential Fatty Acids) available to help you maintain a healthy cardiovascular system. Our Shark Liver Oil is the highest grade available with Squalene and Alkoxyglycerol to help maintain your body's defense system. Both oils are directly imported by HTN and derived from deep cold-water fish off the coast of Scandinavia to ensure premium quality.

Assimilator is a potent combination of natural plant enzymes in a proprietary formulation with essential ionic trace minerals. This formula helps digest processed and cooked foods. Assimilator is designed to promote the healthy oxygen-carrying ability of red blood cells enabling better nutrient utilization, energy production, optimal cellular health and immune system competence. Assimilator promotes cellular health, enhancing the removal of unwanted waste and debris from the cellular environment, a characteristic in people with less than optimal health.

OptiBerry is a powerful and unique multi-berry extract. In vivo and in vitro studies have shown that berries, rich in anthocyanins, possess many biological functions that confer potent health benefits, including antioxidant activity, cardiovascular protection, blood sugar support, enhanced brain function and mental clarity, anti-aging properties, urinary tract health, healthy vision and skin care.

A steady diet of refined and processed foods promotes digestive maladies and retards the absorption of nutrients from foods and dietary supplements. HTN's **Nature's SBOs** (Soil Based Organisms) contains 10 certified non-toxic cultures labeled as Class 1 agents. SBOs are extremely important and designed to cleanse the Digestive System of toxic build-up. SBOs may help clean the villi of the small intestine, promote optimal absorption of nutrients, and reduce the damaging effects of environmental toxins and stress. SBOs also help assimilate vitamins and minerals from dietary supplements. SBOs contribute significant support for total body health, vitality and the feeling of well-being.
